## IPS Rousseau McClellan School 91 plans Improvements

Beginning this coming summer and continuing through December 2011, School 91 will undergo a \$4.5 million renovation.

The school will receive air conditioning and several interior upgrades to include more user friendly classrooms, upgraded technology, and an overall more energy efficient building.

The school's main entrance will be moved to the corner of 51st and Evanston, no longer directly on Evanston. This is a new design, aimed at making the building more secure.

A few exterior changes will be made. The alley that is on the north side of the school is going to be incorporated to help with the traffic flow of buses and parents for drop off/pick up of students. The alley will be connected to the north part of Caroline Ave leading to 52nd street. Caroline Ave will still be divided by the current parking lot. Some repairs to concrete and asphalt will be made as well.

School 91 is a Montessori IPS Magnet School and a National Blue Ribbon Award winner (2008).
